Stylish & Secure Lockable Plantation Shutters

For indoors, outdoors and all weather conditions

Now you can feel safe and secure at home without looking through imposing steel grilles and bars. SureSafe shutters provide you with a fresh new perspective on home security. Not only are they extremely secure but their sleek design and stylish good looks make them ideal for both traditional and contemporary settings. Made from powder-coated reinforced aluminium, the shutters are available in a hinged, sliding or bi-fold design. They are lockable and easy to operate — with aerofoil louvres allowing plenty of light and air indoors. Durable and maintenance-free, SureSafe shutters are superior to timber and will not crack, shrink

or warp. And they won't break your budget. You'll save money on blinds and curtains and improve the resale value of your home with these elegant additions.

PatioSafe Louvres are a related product designed for patios, pergolas,

PatioSafe Louvres are fast becoming the standard for elegance and practicality in the most sophisticated residences and commercial spaces. They're not only an attractive architectural feature, but they allow uninterrupted airflow and light in while

You get the shutter look at the same or less than the cost of conventional wood products and add genuine resale value to your home.

carports, gazebos, entertaining areas, balcony ends, offices, courtyards — in fact, anywhere you need to control privacy and weather.

keeping the hot sun out. PatioSafe is a new alternative to lattice, aluminium awnings, roll down canvas awnings, PVC awnings, glass windows, flyscreen enclosures and traditional shading systems. The aluminium construction ensures that the PatioSafe Louvre System is highly durable and effective in all outdoor conditions. PatioSafe allows you to keep all the natural airflow and light on your balcony or patio or shut out the harsh western sun, while remaining totally private and secure. You simply open the aerofoil louvres.

You get the shutter look at the same or less than the cost of conventional wood products and add genuine resale value to your home. Now you can have a louvre shutter system that doubles as a revolutionary form of security for your home or office. It is 100% Australian invented, owned and made — the most cost-effective security and shading system available in Australia. We're so sure that PatioSafe louvres will provide unrivalled quality and durability that we offer a 5-year warranty against warping, cracking, shrinking, stretching, buckling, spitting and twisting.
