## Thinking Timber Plantation Shutters? THINK AGAIN

Our unique combination of Powder coated metal frame and composite blade might look a little better, might even cost a little less, but it's only after 5 or so years that you will really know the difference. No maintenance, no repainting, no cracking or warping. Just a plantation shutter that always looks clean and new. Our technology, your saving.

# Combination Suresafe Advertising Ideas

## SureSafe All Weather Aluminium Shutters

Shutter & glass combination

Sliding doors

Bi-fold doors

Suresafe plantation shutters are ideal for indoor, outdoor and all weather conditions. Control the heat, light & rain as well as your privacy with a simply to use control bar. The Sure safe shutter also provides you with a new perspective on home security. Not only are they extremely secure, but their sleek design and stylish good looks make them ideal for both traditional and contemporary settings. Made from powder-coated reinforced

aluminium, the shutters are available in hinged, sliding or bi-fold designs. They are lockable, durable, maintenance free and have the added option of fywire screening to control annoying insects. Suresafe shutters are superior to timber and will not crack, shrink or warp. They won't break your budget either. You'll save money on blinds, curtains and improve the resale value of your home with these elegant and fashionable improvements.

## PatioSafe All Weather Aluminium Louvres

Bring your outside inside

Enclose your patio

Control privacy and the elements

Patiosafe all weather louvres are designed for patios, pergolas, carports, gazebos, entertaining areas, balcony ends, offices, courtyards - in fact, anywhere you need to control privacy and weather. Patiosafe louvres are fast becoming the standard for elegance and practicality in the most sophisticated residences and commercial spaces. They're not only an attractive

architectural feature, but they allow uninterrupted airflow, and light in while keeping the hot sun out. By simply opening the aerofoil louvres you control the sun and light, while maintaining privacy and security. You get the expensive shutter look at the same cost as conventional wood products, and add genuine resale value to your home. Both Patiosafe & Suresafe are

100% Australian invented, owned and made. They are the most cost effective all weather security and shading system available. We offer a 5 year warranty against warping, cracking, stretching, buckling, splitting & twisting for all indoor & outdoor locations including beach front.

### Advertising tip

All of these adverts can be used in the press, glossy magazines and yellow pages.

### Note:

Try to treat your yellow pages as an advertisements. Use an eye catching phrase at the top of advert, rather than promoting your company name. Many prospects surf the yellow pages the same as they do press adverts.
